

⋮ What went well ⋮

Changing and adjusting the Device List page.

Creating the elstac playbook

Creating install instructions

Creating device disabling

⋮ What could be improved ⋮

More work could be put into the report.

Finish the final issues that were supposed to be done in week 9

Some more testing

Less last minute merges

⋮ What we will commit to in the next Sprint ⋮

Go over the code one last time and check if there are any bugs which need to be fixed.

Documentation of creating kibana dashboards

Finish the remaining issues

Creating the final presentation
