

⋮ What went well

Writing the report

The client meeting, they we're satisfied with our progress

NGINX reverse proxy now allows anonymous login to kibana

Fixing the pagination for the Overview and Device List page

⋮ What could be improved

There is no documentation telling us where the public URL links to, we need to ask them for clarification

Server side installation documentation

Css and the design of some pages

⋮ What we will commit to in the next Sprint

Add additional filters for other metrics

The automatic installation of elastic

Further improvements regarding the CSS and HTML of some pages

Use web sockets for filtering on the Device List page

Disabling a node

Add additional filters for other metrics
