

Agenda 2023-06-09

1. Progress report
2. Demo of the product (new features):
 - a. Updated test coverage
 - b. Implement selectable metrics in the overview page.
 - c. Create an uninstallation script for our collector, an installation script for metric beats and an uninstallation one
 - d. Adjusted the Overview & Device List page so that they work with the new implementation of the Device Class
 - e. Setting the statuses of Devices to Warning/Offline if they do not send server requests within 2 and 5 minutes, respectively.
3. Questions for the TA:
 - a. MRs have no discussion?
 - b. Extra tests collector software?
 - c. Poor organisation of the team, missing person in meetings? Everyone was always in meetings, except some people were online.
4. TA's questions
5. Other questions from the group
